

Instruction Manual

Solux[®]Pro

Product Identification

VEGA-720

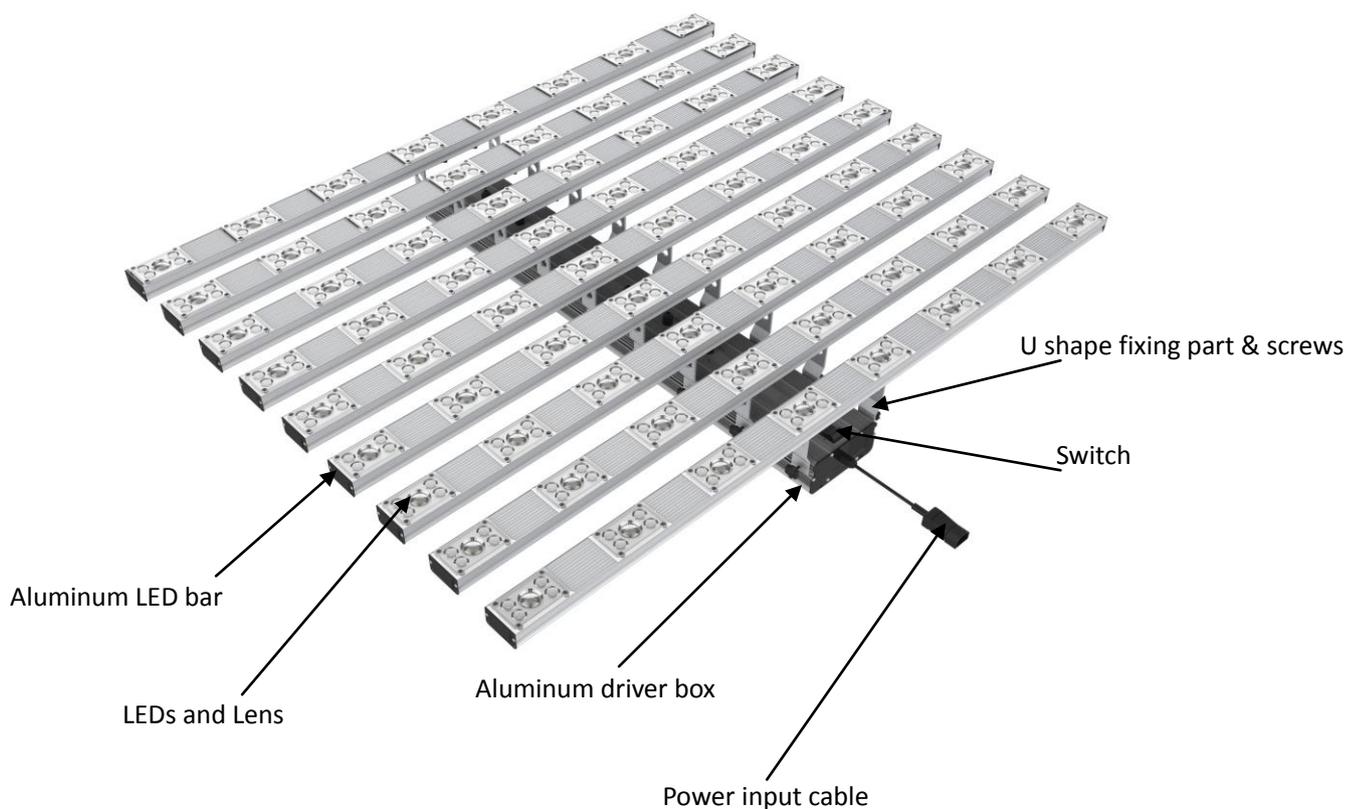

1. Delivery contents

- 9 x LED bars
- 1 x driver box
- 9 x U shape fixing part with fixing screws
- 1 x power cable
- 2 x hanging kits
- Universal instruction manual

Please keep the instruction manual and desist from throwing it away. It might come in handy with future troubleshooting.

2. Product Structure

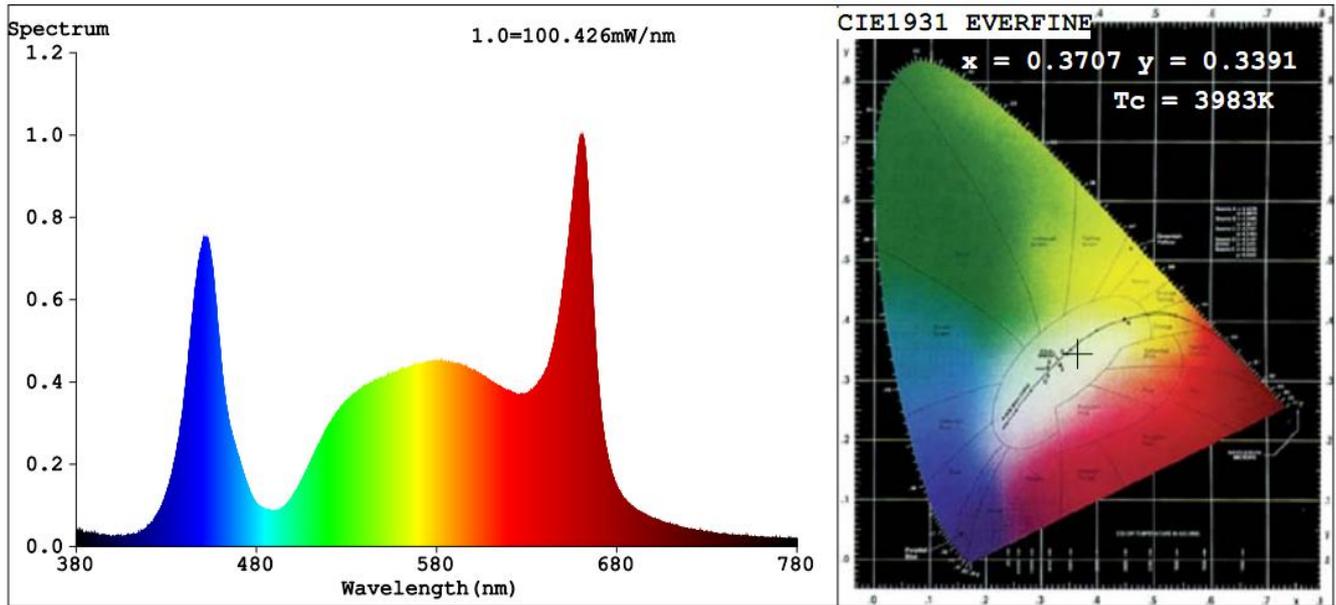

3. Product Datasheet:

3.1 Product specifications

| | | | |
|------------------------|------------------------------------------------|---------------------|-----------------------------|
| Item | VEGA-720 | Control | Switch control |
| LED bar qty. | 9 x LED bars | Beam angle | 60 or 105 degree optional |
| LED source | High efficiency/high CRI COB + SMD3535 leds | Led qty. | 72xCOB+ 288xSMD3535 leds |
| Waterproof level | IP65 | Product Size | 1200x900x182mm |
| AC input | AC 100-250V/50-60HZ | Net Weight | 22.1KG |
| Driver | Meanwell driver | Working tempt. | 0° ~ 40° |
| True power consumption | 720W | Working environment | Damp location |

3.2 Spectrum

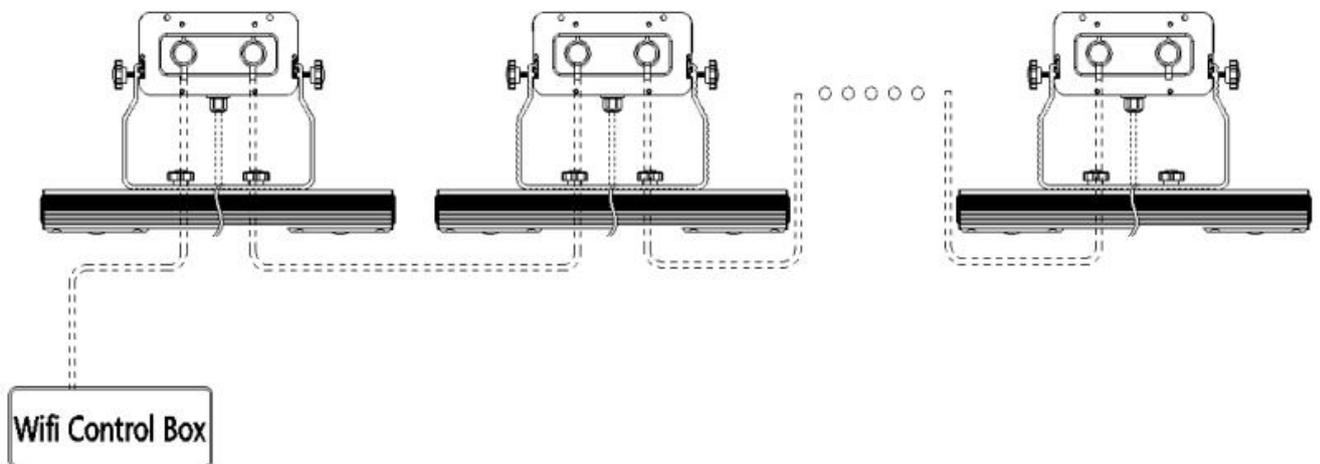

4. Control

4.1 control diagram:

- WIFI controller:

- WIFI control diagram:

4.2 Control function:

- Timer setting
- Dimming control
- High Temp Protection
- For Large Application up to 100units
- Perfect simulation of Sunrise and sunset

5. Preparation

• Transportation

Improper transportation may harm or can even cause damage to LED lamp and power housing box). In case of obvious damage or incomplete scope of supply, please refer to your vendor and Haulage company immediately.

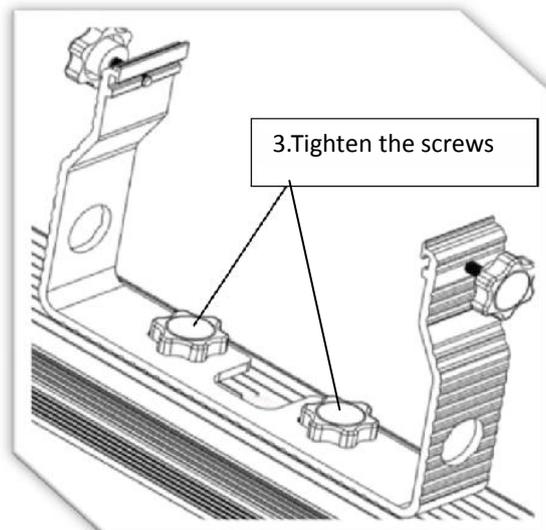

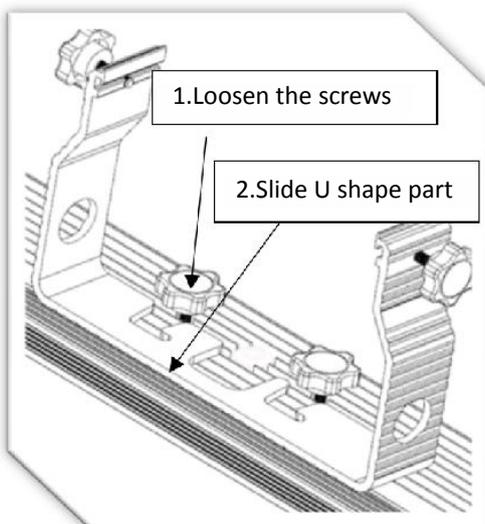

• Unboxing

Please handle and unbox the LED lamp with care! Check the delivery contents for completeness first. A detailed list of the product range is contained on the inner cover in this manual.

 Through transport or due to a long storage time, the LED-modules might get a little polluted. Therefore we recommend to clean the modules before each use with a dry and soft tissue.

6. Installation Instruction

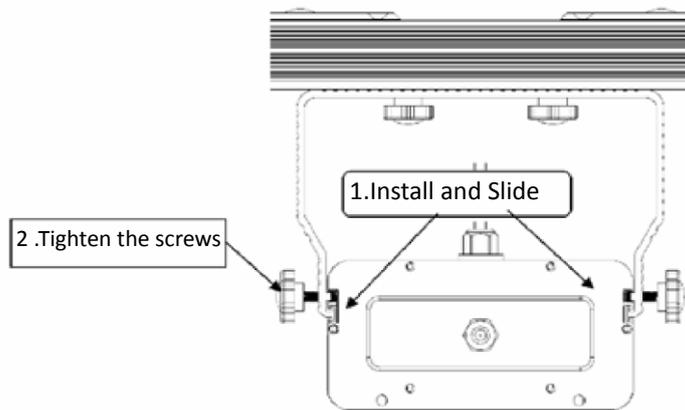

Step 1: Fix "U" shape part onto each LED bar with two screws:

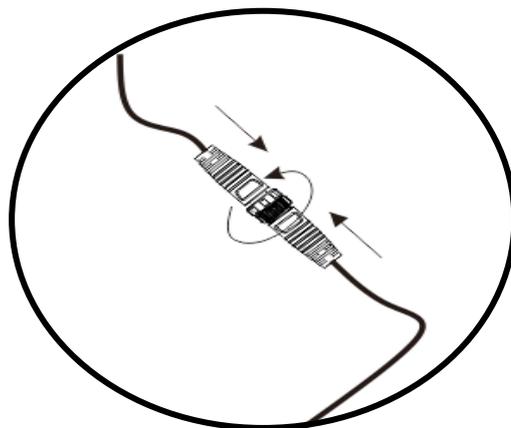

Step 2: Fix LED bars one by one onto driver housing box through "U" shape part with screws:

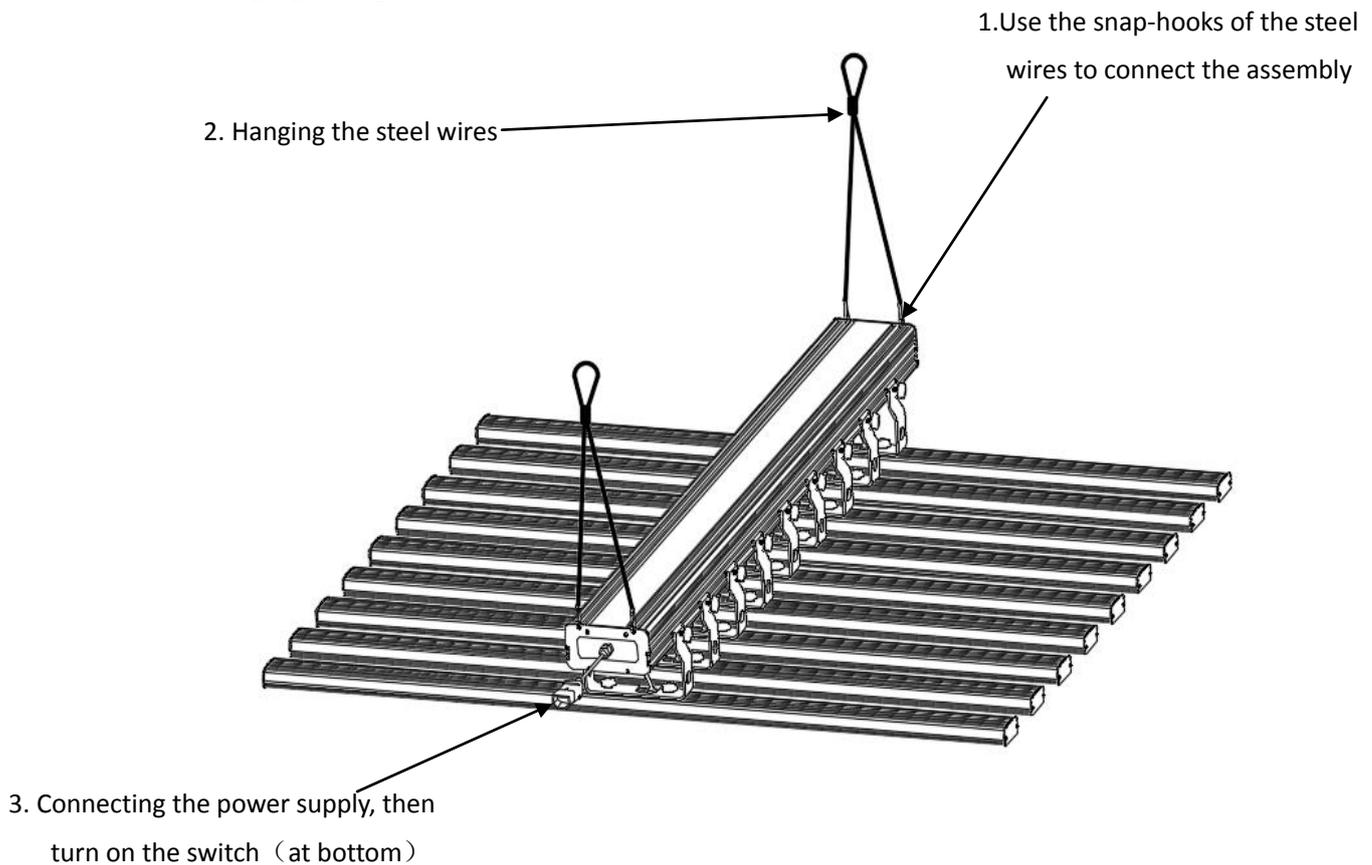

Step 3: Fix hanging kit onto LED bar, hang up LED bar fixture at proper position and tighten the screws.

Step 4: Adjust each LED Bar to right and suitable position, connect power cable to each and every LED Bar

Last Step : Hanging the lights

7. Operation

7.1 Safety measures & precaution

 Warning! This LED fixture is powered with electricity (AC100-250V)! To prevent injury, we ask you to desist from improper use!

- Never open the case of the device! Health hazards await the consumer and the warranty of the device expires.

7.2 Putting into service

Operate the LED fixture only horizontally, while hanging or slightly angled (approx. about 20°). Deploy the LED lamp fixture about 15-50cm (at least 10cm!) above the top of the plants;

7.3 Proper use

Do not use the LED fixture vertically or as illumination device upside-down (direct eye contact and long exposure over time may cause permanent damage to your eyesight!).

We don't advise you to deploy the device as a room illuminant. It is exclusively designed and developed for plant breeding, cultivation and hibernation. Please ensure that the LED fixture is being operated out of sight and out of reach of children and animals to protect their eyes!
